SKILLS

LANGUAGES | HTML • CSS • JavaScript • TypeScript • SCSS • JSON

BACK END DEVELOPMENT | NodeJS • Express • MongoDB • Firebase • Socket.IO • REST API

FRONT-END DEVELOPMENT | JQuery • ReactJS • NextJS • Redux • Bootstrap • Tailwind CSS • Material UI • Daisy UI • Shadcn
• Angular • Zustand

TOOLS AND PLATFORMS | Git • GitHub • Bitbucket • Vercel • Netlify • Render • Heroku • Chrome DevTools • Jira • ClickUp • Trello

OTHERS | Communication • Team player • Problem-Solving • Time Management • Deliver results

SUMMARY

Experienced front-end developer with 4+ years of expertise in crafting visually appealing and user-friendly interfaces using React and Next.js, coupled with a strong understanding of the MERN stack for building scalable web applications.

EXPERIENCE

SPOT N PASTE | JavaScript, ReactJS, NextJS, NodeJS, MongoDB

Front-End Developer / MERN Stack Developer | Jan 2021 - Present | Remote

React/ Next.js Developer

- Achieved the successful conversion of 70+ Figma screens into a Next.js 14 frontend within a 1.5-month deadline
- Leveraged TypeScript for improved type safety, code maintainability, and enhanced developer experience in Next.js projects
- Revamped the Next.js project by refactoring code, standardizing routing patterns, and improving code organization, resulting in a more efficient and scalable application
- Led sprint planning sessions, ensuring clear task allocation and realistic goals. Facilitated daily stand-ups to track progress and address any roadblocks

React/ MERN Developer

- Developed reusable React components, improving code maintainability by 30% and streamlining new feature development
- Implemented efficient state management solutions using Redux Toolkit and Context API, ensuring consistent data flow and optimal performance across 10+ React applications
- Implemented password hashing and salting techniques (bcrypt) to protect user credentials and ensure data security.
- Integrated Socket.IO into MERN stack applications to enable real-time communication, ensuring seamless data updates and interactive user experiences

Chrome Extension Expertise and Support

- Handled over 60% of production bugs and support tickets, ensuring a smooth and reliable user experience
- Developed and launched 2 Chrome extensions from scratch, overseeing the entire development lifecycle from initial brainstorming to production deployment
- Utilized React.js to build dynamic frontends for Chrome extensions, enhancing UI performance by 25%, and connected with backend APIs to streamline data management, resulting in a 35% faster data processing rate

EDUCATION

BS in Computer Science, 2015-2019

Comsats University, Islamabad
