FARAN JAVED

Front End Developer | React | NextJS

+923058439294 | faranweb@proton.me | linkedin.com//faranjaved | github.com/iamfaran | Sahiwal, Pakistan

Summary

As a Front-End Developer, I excel in turning complex designs into digital masterpieces. My attention to detail ensures every user interface detail is crafted to perfection, offering visually impressive and seamless user experiences.

Skills

Languages: HTML, CSS, JavaScript, TypeScript, SCSS, JSON
Libraries and Frameworks: Bootstrap, Tailwind, Material, JQuery, ReactJS, NextJS, Angular, Shadcn
Backend: MongoDB, Supabase, Firebase
Tools and Integration: Git, RestAPI, Redux, Context API, Chrome Extension, IndexedDB, Vite, Webpack, Postman, Vercel, Netlify
Others: Agile (Scrum/Kanban), Debugging, Data Structures (DSA), Jira, Clickup, Figma, Problem Solving

Experience

React / NextJS Developer | Upwork

2024-Present | Remote

- Designed and developed highly customizable components using a combination of Tailwind CSS and Tailwind Merge, enabling rapid UI development and seamless theme customization, resulting in a 50% reduction in development time for client projects.
- Optimized React applications with code-splitting and lazy loading, reducing bundle sizes by 30% and improving initial load times
- Utilized Next.js 14 and API Routes to automate the generation of SEO-friendly URLs and sitemaps, enhancing site navigation and crawl ability, which contributed to a 25% rise in site indexing speed

ReactJS / Chrome Extension Developer | Spot N Paste

2021-2023 | Remote | Yelm, WA

- Led the migration and comprehensive refactoring of a large-scale legacy application to React and TypeScript, implementing Context API and Redux for state management, which streamlined data flow, enhanced performance by 30%, and increased development agility.
- Solely developed 5+ Chrome extensions specifically designed for dropshipping automation, resulting in a 60% increase in productivity by automating order processing, inventory management, and e-commerce platform integration, significantly streamlining operational workflows for drop shippers
- Implemented Redux in 10+ applications for global state management, ensuring predictable state updates and streamlined application logic

Front End / React Developer | Fiverr
2020-2021 | Remote

- Successfully translated over 50+ PSD designs into responsive HTML, CSS, and JavaScript code
- Utilized media queries to improve the responsiveness of 30 websites, increasing user time on site by 15%
- Achieved 95%+ client satisfaction rate by delivering projects on time and exceeding performance targets
- Collaborated closely with backend developers to optimize API endpoints, resulting in a 30% reduction in data payload sizes and a 20% improvement in server response times

Education

BS in Computer Science, 2015-2019
Comsats University, Islamabad
